eBenefits Websites™

A Simple Tool to Ensure Employees Understand Their Benefits

An eBenefits Website is a simple web-based communication tool based on efficiency. Password-protected, secure websites offering safety and cost-effective measures, for both employees and HR staff. All administration is streamlined with our exclusive methods.

Our system improves employee morale, helping them understand their importance. It will reduce or eliminate the widely recognized high costs, inefficiencies, inaccuracies and anxieties long associated with older, more traditional methods. By using our up-to-the-minute techniques, our process is effortless.

We provide an online mechanism for communicating benefits to employees through customized websites, available around the world, from any internet connection.

Based on simple design and ease of use, all administration is streamlined for employees and HR staff.

eBenefits Websites™

A Simple Tool to Ensure Employees Understand Their Benefits

www.eBenefitsWebsites.com

eBenefits Websites are the most flexible, effective communication tools created. The simple interactive design is easy to use. No changes to current employee benefits program required. Capable of linking to intranets and incorporating various benefit plans, multiple brokers and products, including online-enrollment and payroll companies. Employees now take advantage of all the generous benefits offered by their employers.

eBenefits Websites™

A Simple Tool to Ensure Employees Understand Their Benefits

Employer Highlights:

- Perfect for linking to your company's current intranet
- Mimics the colors and look of any Intranet or client website
- Unidentifiable, so it looks like it is part of your website
- Works with your current employee benefits program
- Works universally with all plans, HR products, carriers, vendors, brokers
- Requires no employee or HR training
- Reduces benefits communication costs
- Reduces office paper work
- Increases benefits awareness, appreciation and morale
- Aids in new hire self-service orientations

Product benefits:

- Guarantee employees have a clear understanding of their benefits
- Reduced employee reliance on HR
- Employees become "self-sufficient" benefit users
- Reduction in employee questions, phone calls and emails to HR staff
- Promote direct interface between employees and insurance providers
- Reduced benefit related printing costs
- Disposal of new hire welcome kit storage
- Changes to benefit plans are instantly communicated to employees
- Resources that help the lives of employees and their families
- Healthier employees through health and wellness sections

eBenefits Websites make Human Resources departments paperless and streamline benefits administration. They eliminate all employee questions and issues regarding benefits by providing employees with a formal structure for questions and communicating with their insurance carriers and plan vendors. This ensures that employee benefits programs run smoothly, effortlessly and are automated and paperless. Genuine employee issues are caught in the protection net and resolved quickly.
